Dear Sir,

Ref: Rayleigh , Essex , your intervention required ASAP.

I bring to your attention something that I (a resident of Rayleigh) have only just learnt about myself (on 18/07/13) – a potential act of rural vandalism.

The Rochford District Council are proposing a major expansion to the West of our town (on Green Belt Land) involving large scale housing, Heavy Industry/ Light Industry and Traveller Site provision – all in one area at the same time.

Apart from spoiling the Rural approach vista’s to our ancient town the scale and speed of this will swamp the environment in general and the already overloaded infrastructure (Schools-roads-doctors –trains –sewage ..etc;).

I appeal to you to step in and, as a minimum, look at the apparent lack of local consultation on this particular scheme – no one I speak to appears to be aware.

Fortunately there is a formal objection No 28594 which I shall be backing too.

*Thanking you in anticipation, I remain
Yours sincerely*
